

MoFi Distribution General Warranty

The MoFi Distribution Family of products all carry a limited warranty when purchased from an Authorized Dealer. The warranty is a service provided, for period of time, that protects a newly purchased product from "Manufacturing Defects" that a consumer could encounter. The warranty is provided when a MoFi Distribution product is purchased from an "Authorized dealer" of that product. Warranties are only for a specified period of time that begins on the date of purchase. Manufacturing Defects that arise within the warranty period are repaired, or replaced for the consumer at no charge for parts & labor. There may be shipping or other fees the consumer may have to pay for under a warranty repair or replacement. The determination of whether a defect is covered under the warranty is at the manufacturer's sole discretion.
